INDEX OF SUBJECTS

Acidification and pH buffering capacity of alluvial soils under sugarcane (Hartemink), 231

Adaptation in Plant Breeding. Developments in Plant Breeding Volume 4, edited by P. M. A. Tigerstedt, reviewed by J. E. Bradshaw, 246

Africa (Eastern, Southern and Great Lakes regions) and adaptation to climate in common bean (*Phaseolus vulgaris* L.): photothermal flowering responses (Qi, Smithson and Summerfield), 153

Africa's Emerging Maize Revolution, edited by D. Byerlee and C. K. Eicher, reviewed by S. A. Eberhart, 497

Agricultural R & D at the Crossroads, edited by A. Budelman, reviewed by J. B. Dent, 128

An Introduction to Agricultural Biochemistry, by J. M. Chesworth, T. Stuchbury and J. R. Scaife, reviewed by W. W. Christie, 341

Awassi sheep (the use of) to disperse the seeds of annual pasture legumes, for the rehabilitation of degraded grasslands in north Syria (Ghassali, Osman and Cocks), 391

Banana (yield of) grown with supplemental drip-irrigation on an Ultisol (Goenaga and Irizarry), 439

Barley and peas mixed intercropping (profitability of) in the subsistence farming systems of the Nepalese hills (Subedi), 465

Bean, common (*Phaseolus vulgaris* L.) and adaptation to climate: photothermal flowering responses in the Eastern, Southern and Great Lakes regions of Africa (Qi, Smithson and Summerfield), 153

Bean, winged and nitrogen accumulation and partitioning in response to support systems (Motior, Wan Mohamad, Wong and Shamsuddin), 41

Beans intercropping with kale (the effects of) on yield and suppression of redroot pigweed under high altitude conditions in Kenya (Itulya and Aguyoh), 171

Biodiversity in Trust, edited by D. Fucillo, L. Sears and P. Stapleton, reviewed by D. Astley, 502

Bioengineering of Crops. Report of the World Panel on Transgenic Crops, by H. W. Kendall, R. Beachy, T. Eisner, F. Gould, R. Herdt, P. H. Raven, J. S. Schell and M. S. Swaminathan, reviewed by Jim Dunwell, 499

Biological Fixation of Nitrogen for Ecology and Sustainable Agriculture. NATO ISI Series G: Ecological Sciences Vol. 39, edited by A. Legocki, H. Bothe and A. Pühler, reviewed by K. Giller, 125

Biological Indicators of Soil Health, edited by C. Pankhurst, B. Daube and V. Gupta, reviewed by Iain Young, 246

Biotechnology: Building on Farmers' Knowledge, edited by J. Bunders, B. Haverkort and W. Hiemstra, reviewed by N. W. Simmonds, 128

Brazil (southern) and modelling the impact of erosion on soil productivity: a comparative evaluation of approaches on data (Tenberg, Da Veiga, Dechen and Stocking), 55

Burkina Faso and interactions between néré (*Parkia biglobosa*) and under-planted sorghum in a parkland system (Wilson, Brook and Tomlinson), 85

Cameroon (North-West mid-altitude agro-ecological zone) and the stimulation of top and root growth of leucaena with farm manure (Yamoah, Ngueguim and Ngong), 313

Cashew farm upgrading: agronomic options for increasing cashew production by smallholder farmers in Tanzania (Martin, Kasuga and Bashiru), 137

Cassava, tannia, taro, yam and sweet potato and the effect of shade on photosynthetic pigments in tropical root crops (Johnston and Onwueme), 301

Cattle manure storage time (effect of) on weed seedling emergence and nutrient release (Rupende, Chivinge and Mariga), 277

Cereal yields in farmers' fields and managing soil nitrogen dynamics: legume rotation in the moist tropical savanna (Oikeh, Chude, Carsky, Weber and Horst), 73

Climate (adaptation to) in common bean (*Phaseolus vulgaris* L.): photothermal flowering responses in the Eastern, Southern and Great Lakes regions of Africa (Qi, Smithson and Summerfield), 153

Climate effects (the study of) on the nut yield of coconut using parsimonious models (Peiris and Thattil), 189

Coconut (nut yield) and the study of climate effects using parsimonious models (Peiris and Thattil), 189

Cowpea breeding and farmer acceptability criteria (Kitch, Boukar, Endondo and Murdock), 475
Critical Landcare, edited by S. Lockie and F. Vanclay, reviewed by T. J. Maxwell, 497
CUPPA-Tea: a simulation model describing seasonal yield variation and potential production of tea. 1. Shoot development and extension (Matthews and Stephens), 345; 2. Biomass production and water use (Matthews and Stephens), 369

Dairy production systems (smallholder peri-urban) and the profitability of forage production (Agyemang, Dogoo and Makun), 423
Design (aspects of) for on-farm fertilizer trials (Fielding and Riley), 219
Developing On-farm Research – The Broad Picture, by N. McNamara and S. Morse, reviewed by J. C. Davies, 126
Developing Technology with Farmers, by L. van Veldhuizen, A. Waters-Bayer and H. de Zeeuw, reviewed by Geoff Barber, 500
Drip-irrigation (supplemental) and the yield of banana on an Ultisol (Goenaga and Irizarry), 439
Drought avoidance by asynchronous flowering in pearl millet stands cultivated on-farm and on-station in Niger (De Rouw and Winkel), 19
Drought tolerance and growth analysis in rubber during the immature phase in a dry subhumid climate (Chandrashekar, Nazeer, Marattukalam, Prakash, Annamalainathan and Thomas), 287

Environment × genotype interaction (analysis of) in *Musa* trials (De Cauwer and Ortiz), 177
Environments (contrasting) and groundnut growth and development. 1. Growth and plant density responses (Bell and Wright), 99; 2. Heat unit accumulation and photo-thermal effects on harvest index (Bell and Wright), 113
Erosion impact on soil productivity modelling: a comparative evaluation of approaches on data from southern Brazil (Tenberg, Da Veiga, Dechen and Stocking), 55
Evolution of Crop Plants. (*Second Edition*.), by J. Smartt and N. W. Simmonds, reviewed by P. R. Shewry, 128
Experiments in Ecology, by A. J. Underwood, reviewed by R. A. Kempton, 125

Facing Barriers to Movement of Plant Varieties for Agricultural Development, edited by D. Gisselquist and J. Srivastava, reviewed by T. Martin Clucas, 341
Factor productivity trends in a rice-wheat cropping system under long-term use of chemical fertilizers (Yadav), 1
Farm manure and the stimulation of top and root growth of leucaena in the mid-altitude agro-ecological zone of North-West Cameroon (Yamoah, Ngueguim and Ngong), 313
Farmer acceptability criteria in breeding cowpea (Kitch, Boukar, Endondo and Murdock), 475
Farmers' Experiments: Creating Local Knowledge, by J. Sumberg and C. Okali reviewed by Deborah Merrill-Sands, 500
Farms, Trees and Farmers: Responses to Agricultural Intensification, by J. E. M. Arnold and P. A. Dewees, reviewed by R. R. B. Leakey, 499
Fertilizer trials (on-farm) and aspects of design (Fielding and Riley), 219
Fertilizers (chemical, long-term use of) and factor productivity trends in a rice–wheat cropping system (Yadav), 1
Flowering in pigeonpea in Kenya: sensitivity to photoperiod and temperature during pre-flowering development (Ellis, Summerfield, Omanga, Qi and Roberts), 249
Forage production profitability in smallholder peri-urban dairy production systems (Agyemang, Dogoo and Makun), 423

Genetic Engineering – Dream or Nightmare? The Brave New World of Bad Science and Big Business, by Mae-Wan Ho, reviewed by N. W. Simmonds, 503
Genetics, Cytogenetics and Breeding of Crop Plants. 2. Cereal and Commercial Crops, edited by P. N. Bahl, P. M. Salimath and A. K. Mandal, reviewed by N. W. Simmonds, 501
Genotype × environment interaction (analysis of) in *Musa* trials (De Cauwer and Ortiz), 177
Global Climate Change: Economic and Policy Issues. (*World Bank Environment Paper No. 12*.), edited by M. Munasinghe, reviewed by J. L. Monteith, 126
Glossary of Plant-Pathological Terms, by M. C. Shurtleff and C. W. Averre III, reviewed by J. M. Hirst, 245
Grassland (degraded) rehabilitation in north Syria: the use of Awassi sheep to disperse the seeds of annual pasture legumes (Ghassali, Osman and Cocks), 391
Groundnut growth and development in contrasting environments. 1. Growth and plant density responses (Bell and Wright), 99; 2. Heat unit accumulation and photo-thermal effects on harvest index (Bell and Wright), 113

History of Agricultural Research in Mauritius, by J. Manrakhan, reviewed by Eric H. Roberts, 342

Intensified Systems of Farming in the Tropics and Subtropics, by J. A. N. Wallis, reviewed by Melvin Cannell, 246
Intercropping kale with beans (the effects of) on yield and suppression of redroot pigweed under high altitude conditions in Kenya (Itulya and Aguyoh), 171
Interspecific Hybridisation: Progress and Prospects, edited by M. P. Jones, M. Dingkuhn, D. E. Johnson and S. O. Fagade, reviewed by N. W. Simmonds, 498

Kale intercropping with beans (the effects of) on yield and suppression of redroot pigweed under high altitude conditions in Kenya (Itulya and Aguyoh), 171
Kenya (high altitude conditions) and the effects of intercropping kale with beans on yield and suppression of redroot pigweed (Itulya and Aguyoh), 171
Kenya and flowering in pigeonpea: sensitivity to photoperiod and temperature during pre-flowering development (Ellis, Summerfield, Omanga, Qi and Roberts), 249

L'Amélioration des Plantes Tropicales edited by A. Charrier, M. Jacquot, S. Hamon and D. Nicolas, reviewed by Lesley Currah, 504
Leaf appearance rate (use of) estimated from measurements of air temperature to determine harvest intervals for tea (Burgess and Carr), 207
Legume rotation in the moist tropical savanna: managing soil nitrogen dynamics and cereal yields in farmers' fields (Oikeh, Chude, Carsky, Weber and Horst), 73
Legumes (annual pasture, use of) and the use of Awassi sheep to disperse the seeds for the rehabilitation of degraded grasslands in north Syria (Ghassali, Osman and Cocks), 391
Leucaena top and root growth stimulation with farm manure in the mid-altitude agro-ecological zone of North-West Cameroon (Yamoah, Ngueguim and Ngong), 313

Maize yield determinants in farmer-managed trials in the Nigerian northern Guinea savanna (Carsky, Nokoe, Lagoke and Kim), 407
Millet (pearl) stands cultivated on-farm and on-station in Niger and drought avoidance by asynchronous flowering (De Rouw and Winkel), 19
Millet (pearl) yield and the impact of urine and dung and soil chemical properties and the effects of urine (Powell, Ikpe, Somda and Fernández-Rivera), 259
Millet yield in the Sahel and the effects of windbreak species and mulching on wind erosion (Michels, Lamers and Buerkert), 449
Modelling the impact of erosion on soil productivity: a comparative evaluation of approaches on data from southern Brazil (Tenberg, Da Veiga, Dechen and Stocking), 55
Mulching and windbreak species (effects of) on wind erosion and millet yield in the Sahel (Michels, Lamers and Buerkert), 449
Musa trials and the analysis of genotype × environment interaction (De Cauwer and Ortiz), 177

Nepal (a case study from) and decentralized on-farm seed potato production from pre-basic minitubers (Schulz, Wells, Baniya, Barakoti, Kharel, Saha, Thapa and Ojha), 487
Nepalese hills (the) and the profitability of barley and peas mixed intercropping in subsistence farming systems (Subedi), 465
Néré (*Parkia biglobosa*) and interactions with underplanted sorghum in a parkland system in Burkina Faso (Wilson, Brook and Tomlinson), 85
Niger and drought avoidance by asynchronous flowering in pearl millet stands cultivated on-farm and on-station (De Rouw and Winkel), 19
Nigerian northern Guinea savanna (the) and maize yield determinants in farmer-managed trials (Carsky, Nokoe, Lagoke and Kim), 407
Nitrogen accumulation and partitioning by winged bean in response to support systems (Motior, Wan Mohamad, Wong and Shamsuddin), 41

On-farm decentralized seed potato production from pre-basic minitubers: a case study from Nepal (Schulz, Wells, Baniya, Barakoti, Kharel, Saha, Thapa and Ojha) 487

Parkia biglobosa see Néré
Phaseolus vulgaris see bean, common
Phosphorus Loss from Soil to Water, by H. Tunney, O. T. Carton, P. C. Brookes and A. E. Johnston, reviewed by Paul J. A. Withers, 342
Photoperiod (the role of) in determining seasonal variation in tea (Matthews and Stephens), 323
Photoperiod and temperature sensitivity during pre-flowering development of pigeonpea in Kenya (Ellis, Summerfield, Omanga, Qi and Roberts), 249
Photothermal flowering responses and adaptation to climate in common bean (*Phaseolus vulgaris* L.) in the Eastern, Southern and Great Lakes regions of Africa (Qi, Smithson and Summerfield), 153

Phytophthora Diseases Worldwide, by D. C. Erwin and O. K. Ribeiro, reviewed by C. Brazier, 127

Pigeonpea flowering in Kenya: sensitivity to photoperiod and temperature during pre-flowering development (Ellis, Summerfield, Omanga, Qi and Roberts), 249

Plant Adaptation and Crop Improvement, edited by M. Cooper and G. L. Hammer, reviewed by W. T. B. Thomas, 245

Plant Pathogens and the Worldwide Movement of Seeds, edited by D. C. McGee, reviewed by R. B. Maude, 501

Plant Pathology. (Fourth Edition), by G. N. Agrios, reviewed by B. Williamson, 127

Plant Resources in South-East Asia. No. 11. Auxiliary Plants, edited by I. F. Hanum and L. J. G. van der Maesen, reviewed by F. T. Last, 498

Potato seed production from pre-basic minitubers, decentralized and on-farm: a case study from Nepal (Schulz, Wells, Baniya, Barakoti, Kharel, Saha, Thapa and Ojha), 487

Principles and Practice of Managing Soilborne Plant Pathogens, edited by R. Hall, reviewed by J. M. Duncan, 343

Redroot pigweed yield and suppression and the effects of intercropping kale with beans under high altitude conditions in Kenya (Itulya and Aguyoh), 171

Rehabilitation of degraded grasslands in north Syria: the use of Awassi sheep to disperse the seeds of annual pasture legumes (Ghassali, Osman and Cocks), 391

Rice–wheat cropping system and long-term use of chemical fertilizers on factor productivity trends (Yadav), 1

Root crops (tropical): yam, taro, tannia, cassava and sweet potato and the effect of shade on photosynthetic pigments (Johnston and Onwueme), 301

Rubber during the immature phase and an analysis of growth and drought tolerance in a dry subhumid climate (Chandrashekar, Nazeer, Marattukalam, Prakash, Annamalainathan and Thomas), 287

Sahel (the) and the effects of windbreak species and mulching on wind erosion and millet yield (Michels, Lamers and Buerkert), 449

Savanna (moist tropical) and legume rotation: managing soil nitrogen dynamics and cereal yields in farmers' fields (Oikeh, Chude, Carsky, Weber and Horst), 73

Shade (effect of) on photosynthetic pigments in the tropical root crops: yam, taro, tannia, cassava and sweet potato (Johnston and Onwueme), 301

Soil chemical properties and urine effects and the impact of urine and dung on pearl millet yield (Powell, Ikpe, Somda and Fernández-Rivera), 259

Soil nitrogen dynamics management and cereal yields in farmers' fields: legume rotation in the moist tropical savanna (Oikeh, Chude, Carsky, Weber and Horst), 73

Soils (alluvial) and their acidification and pH buffering capacity under sugarcane (Hartemink), 231

Sorghum (under-planted) and interactions with néré (*Parkia biglobosa*) in a parkland system in Burkina Faso (Wilson, Brook and Tomlinson), 85

State of the World 1998, by L. R. Brown *et al.* reviewed by M. P. Collinson, 502

Storage time (effect of) on weed seedling emergence and nutrient release in cattle manure (Rupende, Chivinge and Mariga), 277

Strengthening National Agricultural Research Systems, by D. Byerlee and G. E. Alex, reviewed by J. C. Davies, 504

Sugarcane and the acidification and pH buffering capacity of alluvial soils (Hartemink), 231

Support systems (response to) and nitrogen accumulation and partitioning by winged bean (Motior, Wan Mohamad, Wong and Shamsuddin), 41

Sweet potato, cassava, tannia, taro and yam, and the effect of shade on photosynthetic pigments in tropical root crops (Johnston and Onwueme), 301

Syria (north) and the rehabilitation of degraded grasslands using Awassi sheep to disperse the seeds of annual pasture legumes (Ghassali, Osman and Cocks), 391

Tannia, taro, yam, cassava and sweet potato and the effect of shade on photosynthetic pigments in tropical root crops (Johnston and Onwueme), 301

Tanzania and cashew farm upgrading: agronomic options for increasing cashew production by smallholder farmers, (Martin, Kasuga and Bashiru), 137

Taro, yam, tannia, cassava and sweet potato and the effect of shade on photosynthetic pigments in tropical root crops (Johnston and Onwueme), 301

Tea and a simulation model, CUPPA-Tea, describing seasonal yield variation and potential production. 1. Shoot development and extension (Matthews and Stephens), 345; 2. Biomass production and water use (Matthews and Stephens), 369

Tea and the role of photoperiod in determining seasonal variation (Matthews and Stephens), 323

Tea and the use of leaf appearance rate estimated from measurements of air temperature to determine harvest intervals (Burgess and Carr), 207

Temperature and photoperiod sensitivity during preflowering development of pigeonpea in Kenya (Ellis, Summerfield, Omanga, Qi and Roberts), 249

The Adoption of Sustainable Agricultural Technologies: A Case Study in the State of Espirito Santo, Brazil, by Hildo, M. de Souza Filho, reviewed by John Coulter, 504

The Evolving Science of Grassland Improvement, by L. R. Humphreys, reviewed by M. D. Hayward, 129

Urine effects on soil chemical properties and the impact of urine and dung on pearl millet yield (Powell, Ikpe, Somda and Fernández-Rivera), 259

Weed and Crop Resistance to Herbicides, by R. De Prado, J. Jorin and L Carcia Torres, reviewed by T. H. Thomas, 343

Weed seedling emergence and nutrient release in cattle manure and the effect of storage time (Rupende, Chivinge and Mariga), 277

Wheat Production and Utilization, by M. J. Gooding and W. P. Davies, reviewed by F. G. H. Lupton, 502

Wheat–rice cropping system and long-term use of chemical fertilizers on factor productivity trends (Yadav), 1

Windbreak species and mulching (effects of) on wind erosion and millet yield in the Sahel (Michels, Lamers and Buerkert), 449

Yam, taro, tannia, cassava and sweet potato and the effect of shade on photosynthetic pigments in tropical root crops (Johnston and Onwueme), 301
